 No precipitation.

Return From California.

Miss Edna Houston returned from California Sunday night, where she is a nurse, to visit her parents, Mr. and Mrs. J. V. Houston, here.

Has Pictures of Bear.

J. H. Decker of Altamont is exhibiting a number of pictures taken of a bear killed at Klamath Marsh recently, while he and his brother were there.

Recruiting Officer Here.

J. P. Bauer of the United States army is visiting Klamath on a recruiting trip to help supply 70,000 soldiers needed by the regulars to bring them up to war strength. This week is Recruiting Week, under presidential proclamation.

Body Taken East.

The body of W. C. Robinson, who died last week at the Blackburn hospital here, was taken out this morning by Mrs. Robinson and a brother, to Harrison, Kans., where interment will take place. Mr. Robinson formerly taught school at Yainax, and was in the West for his health. He is survived by a wife and three children, and they came here from Oklahoma. A brother came out to accompany the party east.

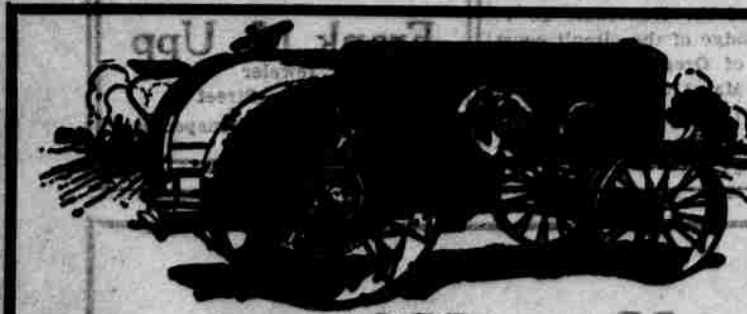

ALWAYS ON THE JOB

The Exide
 Starting & Lighting Battery
 and "Exide" Service
 for Automobiles

DON'T neglect your Starting and Lighting Battery. Like other vital parts of your car, it requires attention. We will inspect your battery free of charge; we will repair it at a reasonable cost; if you need a new battery, we will sell you the best—on "Exide" terms. "There's an 'Exide' Battery for every car."

TELFORD BROTHERS GARAGE
 116 N. Main St., Klamath Falls, Ore.

Increase the Food Production of Your Ranch By Buying a CASE ROLLER BEARING TRACTOR
 Hyatt Roller Bearers are better than ball or solid roller bearings because—
 1—Hold a larger supply of grease.
 2—Simpler; a boy can take them out, pull them apart and get them back right.
 3—Act like springs on a car—absorb shocks—do not dent surface under severe shocks.
 4—Hyatt picks up sand and keeps bearings surface clean.
 5—Ball bearings touch at one point, a solid roller touches at many points, while the entire length of the Hyatt roller comes in contact with the inner and outer surface of bearing.

POPULAR YOUNG COUPLE WEDDED

LAWRENCE MEHAFFY AND MAUD K. NEWBURY MARRIED

YESTERDAY MORNING AT SIX. MR. O'NEAL—LEAVE ON TRIP

Mr. Lawrence Mehafoy and Miss Maud K. Newbury, two well known young people in local society and musical circles, were married yesterday morning at the home of the bride's parents, Mr. and Mrs. A. W. Jones, of Coos Bay, at 7 o'clock. After the ceremony, which was attended only by the parents, relatives and a few close friends of the couple, a wedding breakfast was served, and they left by automobile for a two-week's honeymoon at Medford, Eugene, Portland, and return by the Central Oregon route. The wedding ceremony was conducted by Rev. Geo. T. Bennett, pastor of the Methodist church of this city, and of which church choir Mrs. Mehafoy is a member. Mrs. Mehafoy is an ex-student of the University of Oregon, which she attended two years, and is a member of the Kappa Alpha Theta society. She was one of the most popular coeds at the university during her two years of undergraduate work, being engaged in athletics and musical circles. The groom is the son of Mr. and Mrs. A. A. Mehafoy of this city, and is assistant cashier of the First State and Savings bank, with which institution he has been connected for several years. He is a prominent member of the local Elks Club, and prominent in local musical circles as well as in Mrs. Mehafoy.

The couple became acquainted when Mrs. Mehafoy came to Klamath Falls to spend the summer in 1915, after her parents, Mr. and Mrs. A. W. Jones, moved here to reside from Medford, where they formerly lived. The newlyweds have been the recipients of a large number of showers, and of many beautiful presents from a host of friends for several weeks past, among the prominent being a handsome library table, lamp and card table given by the employees of the First State and Savings bank. Two brothers of the bride, Don and Carl Newbury, who are both members of the coast artillery at Medford, were here for the wedding, and will remain several days.

ANNOUNCEMENTS
 The next meeting of the Pythian Club will be at Mrs. Wm. Whitlock's residence at 524 High street on Tuesday afternoon at 2:30.

A regular meeting of the W. C. T. U. will be held tomorrow at 2:30 p. m. at the home of O. A. Stearns on West Main street. The union will disband for the vacation at this meeting, and it is desired that the entire membership be present.

W. O. W.
 An important meeting of the W. O. W. will be held Tuesday night, June 26th. All Workmen and visiting neighbors are urged to attend.

SOCIETY

The ladies and friends of the Mills Addition Fraternity Club were delightfully entertained at the home of Mrs. H. F. Phillips of Mt. Lake on Wednesday last. A dainty luncheon was served at the noon hour by the hostesses, and the day was spent in needle work, music and conversation. Those present were: Mrs. Bell, Mrs. Ben Owens, Mrs. Ed Owens, Mrs. Rose Stanley, Mrs. Potter, Mrs. Alexander, Mrs. Porter, Mrs. Bailey, Mrs. Montgomery, Mrs. Booth, Mrs. Koonits, Mrs. Dow, Mrs. McComb, Mrs. Snow, Mrs. Phillips, Edna Owens, Dick Owens, Joan Phillips, Herbert Phillips, Charley Booth, Beulah Potter, Jean Potter and David McComb. The ladies wish to extend their thanks to R. L. Alexander and Mrs. Porter for kindly giving the use of their cars.

The marriage of Miss Susan Erickson and Mr. John Smith took place recently at the home of Mr. and Mrs. Martin Greene. The bride was beautifully gowned in cream satin and old lace, and was attended by Miss May Davoren from San Francisco. Jack Green was best man. The home was beautifully decorated with lilacs and June roses. The guests attending were Mr. and Mrs. Buckholz, Mr. and Mrs. Fred Dinger, Mr. and Mrs. Warren Patterson, Mr. and Mrs. Jim Dixon, Mr. and Mrs. Charles Latta, Mr. and Mrs. Charles Poindester, Mr. and Mrs. Herb Phillips, Mr. and Mrs. P. E. Hanson, Mr. and Mrs. W. C. Davenport, Mr. and Mrs. Molchenbacher, Mr. and Mrs. A. H. Newton, Mr. and Mrs. W. Tingley, Miss Ruth Dixon, Miss Elvira Sullivan, Miss Tucker, Miss Nell Latta, Miss Mabel Latta, Miss Hazel Brown, Miss Lucile Stewart, Miss Ruth Newton, Miss Ruth Dixon, Tom Newton, Francis Enell, M. Sullivan, Roland Kelly, Mr. Kelly, M. E. Latta, Sid Latta, J. M. Wright, Jim Green, Joe Green, Cecil Caldwell, Joe Smith, Ed Blair, Joe Robustaine, Dick Brown, Ed Brown, Tom Dixon.

BORN
 DREHER—To Mr. and Mrs. Emil Dreher of 111 Sargent street, this city, Sunday, June 24th, a boy; Dr. R. R. Hamilton attending.

ERE—To Mr. and Mrs. F. C. Ert, of 111 Earl street, this city, today, June 25th, a daughter, named Evelyn Lucile; Dr. Geo. I. Wright attending.

MILLMEN WANTED
 Wanted—Two cashbook men and three millmen. Big Lakes Box Co., the old Savage plant, 25th.

Patriotic Shirts, Hats, Neckwear, Belts, at K. K. K. Store, Leading Clothiers.

 The co-insurance clause is all right in some cases and all wrong in others. Be sure you understand this clause before having it attached to any of your policies. Ask Thillote.

NATIONAL DEFENSE COUNCIL REPORTS

(Continued from page 1)

The national defense brought to a clear and workable focus by the conference of states held recently in Washington at the call, and under the auspices of the council.

"Organization of a railroad commission to send to Russia and enlistment of reserve engineer regiments to aid in rehabilitating the railroads of France."

Munitions Board Busy
 Besides the many things done by the council, Mr. Gifford enumerates in detail the work of the boards and committees. He begins with the general munitions board, of which Frank A. Scott is chairman, and reports the following accomplishments:

"Development of the capacity of small arms factories to supply one million men with arms; contracts signed for small arms ammunition to meet all requirements; artillery ammunition supply developed; source of machine gun supplies developed; raw material obtained for gun carriages and caissons; standardization of motor transports; supply of material for ambulance bodies obtained and satisfactory production of armored cars assured; reduction in price of machine guns obtained and increased production arranged; arrangement of efficient supply of surgical instruments; development of an improved optical glass for military instruments; recommendations made as to fair and equitable prices for army and navy contracts; arrangements made for taking of British small arms plants in this country; establishment of priority in manufacture of machine tools to assure government of proper supplies; compilation of lists of munitions manufacturers for guidance of army and navy in making purchases."

Aircraft Board Acts
 The work of the aircraft production board is set forth at length. Some of the main things it has done are:

"Assisted in organization of aircraft manufacturers into an association; helped put thru an agreement between aircraft companies as a basis for settling patent disputes; evolved, in co-operation with the chief signal officer, a training plan for aviators, and arranged for sending professors to Toronto for instruction in this work; developed in co-operation with the aeronautical division a standard type of aviation school building and equipment and assisted in selecting sites for aviation schools; arranged for standardization of training type of machine between England, Canada and United States navy; developed plans for battle types of planes, orders for which are being placed now by the military authorities."

The medical section, under Dr. Franklin Martin and Dr. F. P. Simpson, has spent much of its time selecting civilian physicians for requisitioning to the army and navy, public service and Red Cross. Their work has been done thru committees named in each state. Selection of 21,000 physicians has been completed.

Edison After Submarine
 Mr. Gifford's report emphasizes the work of an inter-departmental committee whose purpose is to prevent duplication of war work by government departments, and of the "naval consulting board," a board of inventions, headed by Thomas A. Edison, which is investigating plans to combat the submarine.

A commercial economy board, with A. W. Shaw assistant chairman, is studying how commerce may best meet demands on it during the war, and how large quantities of supplies may be diverted to government use without upsetting trade. This board is studying a plan to economize on city delivery systems.

The coal problem is in hands of a committee, headed by F. S. Penbody of Chicago. It is assisting the war railroad board in expediting the movement of coal and is taking measures to stimulate production.

Women Have Defense Body
 A women's defense committee was created in April with Dr. Anna Howard Shaw as its chairman. Its activities will be directed along the following lines:

"Organization of state committees, registration of women for service with the food administration, home and skilled relief work, food production, conservation and thrift; educational propaganda, protection of women and child workers, conservation of the health and welfare of women, conservation of the moral and spiritual forces of the nation."

Scientific research is conducted by the National Research Council under Dr. George E. Hale and Dr. R. A. Milliken. The council is studying devices to detect submarines and mines, investigating range finders and instruments to detect invisible aircraft and improved wireless apparatus.

A committee on shipping is working with the shipping board on the problem of increasing the country's merchant tonnage.

The work of state defense councils is co-ordinated thru a department headed by George F. Porter. It has assisted in organizing state councils and is giving them advice as to what the federal government expects of the states.

Transportation Studied
 Transportation questions are studied by a committee of which Daniel Willard, president of the Baltimore & Ohio railroad, is chairman. It operates thru a war railroad board, of which Fairfax Harrison, president of haul back; expediting movement of board is running the various transportation lines as one continental system.

The railroad board has given preference to fuel and is moving ahead of all other commodities. Food probably will be the next commodity given preferential shipment. Coal is moved in this order: Fuel for the government, for the roads on which mines are located, for other steam roads and finally for general purveyors. The committee recommended the personnel of the railroad companies now in Russia. It is discontin-

ing passenger trains considered not essential, and discouraging conventions and other meetings that require unusual train service.

Engineers for France
 Other accomplishments of the railroad board are given as follows:

"Enlistment of nine regiments of engineers to rehabilitate the French railway systems; an arrangement for moving coal to the Pacific coast in box cars to prevent an uneconomical haul back; expediting movement of food products."

Telephone and telegraph committees of the council have arranged a system of co-operation between the wire companies and the government. Government calls are given preference.

Much army and navy purchasing has been done by the committee on supplies, of which Julius Rosenwald of Chicago is chairman. The committee is composed of six business men chosen from different industries, who are giving their entire time to the work. This committee is said to have saved the government millions of dollars in the purchase of supplies. All proposed army and navy contracts are submitted to the committee which in many instances has instituted new purchasing systems.

\$10,000,000 on Copper Hired
 The committee on raw supplies, headed by Bernard M. Baruch of New York, has organized the purchase of raw materials. It saved the government, according to the report, \$10,000,000 on the purchase of a supply of copper.

Samuel Gompers' committee on labor is engaged in settling industrial disputes and maintaining labor standards.

The committee on industrial preparedness has obtained 27,000 detailed reports from the country's larger manufacturing plants as to capacity to meet the government's industrial and military needs during the war. This information the report declares, will prove invaluable in placing orders for supplies.

Engineering problems are being studied by an engineering committee under Dr. Hollis Godfrey.

Your Last Chance HELP QUICK

THE RED CROSS IS TRYING TO SEE YOU ALL. BUT IF WE DON'T SEE YOU, OUT OUT THE BLANK AND SEND IN WITH ALL YOU CAN GIVE. WE ARE FALLING SHORT. IF YOU HAVE GIVEN AND CAN GIVE MORE, DO SO. HELP KLAMATH GIVE A BIG ANSWER TO A BIG CAUSE. 6,000,000 MEN ARE ON HOOKS OF PAIN RIGHT NOW!
